

THE BLAIRMORE ENTERPRISE

VOL. XVIII, No. 4.

THE BLAIRMORE ENTERPRISE, THURSDAY, JANUARY 27, 1927.

SENIOR LEAGUE GAME HERE MONDAY NIGHT

Blairmore and Coleman seniors will clash in a league fixture on the local arena on Monday night next. Every citizen should keep this date open and come out to see this game and help to support the sport.

GIRL SURVIVOR OF FRANK SLIDE WEBS AT VANCOUVER

Word has been received from Vancouver of the marriage of Miss Marjorie Leitch to Mr. A. L. McPhail.

Miss Leitch was rescued from the Frank Slide in 1903, being then but two years of age, and was the only survivor of her family. She was taken alive from the arms of her dead father, after the home had been swept away about half a mile by the rock slide.

She was well known in Cranbrook, where her uncle and aunt, Mr. and Mrs. Archie Leitch, resided for many years.

Mr. and Mrs. McPhail will reside in Nelson, B.C.

Rev. H. L. Nobbs, of the Church of St. Magloire, will visit Edmonton in February on behalf of the provincial Red Cross work. He will also be present in Calgary at the consecration of the new bishop of Calgary and at the farewell to the Rev. W. Wilford, who is leaving at the end of the month for a charge in Oxford, England.—Dumheller Mail.

ANNUAL MEETING OF RATEPAYERS

The annual meeting of the ratepayers of the Town of Blairmore and of Blairmore School District No. 628, has been called to take place at the Central School tomorrow evening at 8 o'clock.

At this meeting the annual statement of affairs of both the town and school district will be submitted and the various departmental heads will give an account of their stewardship. The regular monthly meeting of the Blairmore Board of School Trustees will convene at 7 p.m. sharp, prior to the meeting of ratepayers.

STUDEBAKER BONSPILL

A Studebaker Cup bonspiel will be held at the Blairmore arena on February 2nd and 3rd. There will be two competitions with first and second prizes for each. Rinks from Pincher Creek to Coleman inclusive will compete.

Entries to be made to the secretary, Mr. M. H. Congdon, Blairmore.

ROYAL BANK OF CANADA HEAD ON 1927 BUSINESS CONDITIONS

"Temporary set-backs which doubtless be encountered, as they have been in the past, but there is no country where, at present, the business structure is better balanced than in Canada, and no other country can face the future with more confidence."

LOCAL DOUKHOBOR TAKES ACTION AGAINST UNIVERSAL BROTHERHOOD

CALGARY, Jan. 25.—Because he claims that he was unlawfully excommunicated from the Christian Community of Universal Brotherhood Ltd. (the Doukhobor organization), for the reason that he educated his children according to the laws of Canada, Nicholas J. Verigin, of Blairmore, Alberta, is suing for \$21,466.00 as recompense for work done for the community and an additional \$5000 damages.

Suit was entered at Calgary on Tuesday by E. V. Robertson, acting for the plaintiff.

Nicholas Verigin is a nephew of Peter Verigin, now canonized as Peter Lordly, former leader of the sect, who met his death in a railway coach explosion in 1924.

The suit promises to revive the whole matter of education as it affects the Doukhobors in this country, a controversy that has often reached fever heat in interior B.C. during recent years. Verigin claims that his adherence to the laws of Canada caused his excommunication and the resultant financial loss. In the Doukhobor community all interests are pooled, no individual having property in his own name.

In the statement of claim filed on Tuesday in the Calgary courts the plaintiff reserves the right to establish by separate action, if necessary, his sole right to the property occupied by him in Blairmore, Alberta, and conveyed to him by his uncle, Peter Verigin, on behalf of the Doukhobor community.

The plaintiff asserts that he is and has been since 1908 a member of the Christian Community of Universal Brotherhood, and that during the years 1908 to 1911, inclusive, he paid over to the community through labor and farming \$6,500.00 and delivered to them stock and implements valued at \$670.00.

Nicholas Verigin also claims that he contributed services to the community during the years 1913 to 1915 to the value of \$2000; that he farmed at Cowley, Alberta, on behalf of the community during the years 1916 to 1919, raising 10,900 bushels of wheat, whereof he claims as his share \$6,700.00. He claims \$1000 as his share of wheat grown for the community during 1920. He further claims \$2,906.00 as his share of wheat and oats raised for the community in the years 1921 to 1923, inclusive. He claims \$1500 for work done for the community in Blairmore during the year 1924.

Section 9 of the statement of claim sets out:

"The defendant community in the fall of 1924 unlawfully excommunicated the plaintiff from its body, whereas the plaintiff was, by educating his children at the public schools, but obeying the laws of Canada in that behalf, and the plaintiff thereby suffered loss and damage."

The plaintiff therefore claims: "Judgment for the sum of \$21,466.00; "Interest on the different sums claimed at the rate of 5 per cent.

"In alternative a declaration by the court that the plaintiff has an undivided interest in the property of the defendant, declaring the nature and extent of such interest.

"An accounting. "Damage in the sum of \$5000. "His costs."

VALUED ADDITION TO BLAIRMORE SCHOOL LIBRARY

Prior to Mr. Harry Burns' departure from Blairmore, he presented the school with a complete set of sixty-two volumes of Collier's "Nation of the World," together with three volumes entitled "History of the Nineteenth Century." The books are all nicely bound and will be very much prized.

LODGE HOLD WHIST AND BRIDGE DRIVE

A most successful combined whist and bridge drive was staged in the Lodge Hall last night under the auspices of Crows' Nest Chapter, I. O. D. E.

Six tables of bridge and fourteen tables of whist were at play. The prize winners were as follows:

Whist—Ladies' first, Mrs. A. E. Ferguson; consolation, Miss H. Fitzgerald. Gents' first, Mr. M. H. Congdon; consolation, Mrs. W. Archer.

Bridge—Ladies' first, Mrs. S. G. Bahnan; consolation, Mrs. A. J. Kelly. Gents' first, Mr. Andrew Hnatychuk; consolation, Mr. Walter Scott.

Supper was served, followed by dancing until 1.30, music being supplied by Mrs. Altmann's orchestra.

The proceeds of the drive, amounting to a neat sum, go towards the War Memorial fund.

ODDFELLOWS HOLD JOINT INSTALLATION

At a special meeting of Blairmore Lodge, I.O.O.F., on Tuesday night, the officers of Blairmore Lodge No. 68 and Coleman Lodge No. 36 were duly installed for the ensuing term by joint ceremony. George Hinson, of Cowley, D.D.G.M., was the installing officer, ably assisted by Past Grand W. E. Tustian, J. Robertson and "Sandy" Thompson, of Cowley.

The officers installed are as follows:

Coleman Lodge No. 36—Junior Past Grand—W. H. Clark. Noble Grand—H. Neilson. Vice-Grand—Russell Vincent. Recording Secretary—H. Vincent. Financial Secretary—J. Van Marion. Treasurer—Harry Boulton. R.S.N.G.—W. Burrows. L.S.N.G.—H. Olson. R.S.V.G.—W. J. Burns. L.S.V.G.—W. Hogan. Chaplain—(to fill). Inner Guard—McKeen Hunter. Outer Guard—(to fill).

Blairmore Lodge No. 68—Junior Past Grand—J. W. Howe. Noble Grand—Ernest McEwen. Vice-Grand—William Oliver. Recording and Financial Secretary—J. B. Harmer. Treasurer—Joseph Montalbetti. Conductor—W. J. Bartlett. Warden—Alex. Morency. R.S.N.G.—W. Patterson. L.S.N.G.—M. Joyce. Chaplain—Jack Patterson. R.S.V.G.—P. Barstelli. L.S.V.G.—Henry Feron. Inner Guard—G. Patterson. R.S.S. and L.S.S.—(to fill).

At the close of the meeting, the Rebekahs appeared on the scene with a bountiful supply of eats, to which full justice was done.

Mason's orchestra furnished music for about two hours of dancing.

The Blairmore Elks added another win to their record when they defeated Lethbridge on Saturday night last at Lethbridge by a score of four to one. Blairmore had only one sub, a junior, three of the main team, Hammond, McVey and MacKay, being unable to get away. Commenting on the game, the Lethbridge Herald remarks: "Blairmore demonstrated that their team is the goods and we grant that they have good prospects of topping the league at the end of the season. A good brand of hockey was dished up for the fans and though the locals did not have a great deal to cheer for in respect to goals, the team showed up well and Blairmore had to put all they knew into the game to secure their goals. Upon the whole, the game was clean, comparatively few penalties being awarded." Blairmore's lineup was as follows: Goal, Druart; defence, H. Manson, F. Vejpava; forwards, Tony Vejpava, J. Dicken, F. Smith; sub, E. Hornquist.

Fifty thousand gallons of liquor confiscated during 1911 and 1912 and held in storage ever since, was offered for sale by public auction at Regina a few days ago, and not a single bid was obtained.

Mrs. Louise Mainwaver Coleman on or about 1911 was taken up residence at Blairmore. She has been a very active member of Progressive Temple, Pythian Sisters, at Coleman, and will be much missed.

WORLD HAPPENINGS BRIEFLY TOLD

A famous gold mine which has produced California's boom days yielded a million dollars to its various owners, has changed hands for \$25.

Utilizing only regular air lines, Mr. and Mrs. Leslie D. Garrison, who set out to circle the world in 21 days next spring, Success would break the present record of 28 days.

The British first cruiser squadron sailed recently from Malta for Shanghai, China, under command of Rear Admiral W. H. D. Boyle. The light cruiser Tagliero was left behind, but will rejoin the squadron later.

Scientific marketing of Australian and New Zealand butter in Britain is creating stiff competition for the Canadian product, the Montreal Produce Merchants' Association was told at the annual meeting held in the Canadian metropolis.

For the nine months of the fiscal year ended December 31, an increase was shown in total Canadian trade of 25 million dollars. This is in comparison with the total trade of the nine corresponding months of the previous fiscal year.

The development of a serum for treatment of rheumatic fever by Dr. James O. Small of the Philadelphia general hospital is announced. The announcement warned, however, that the serum still was in the experimental stage.

Two submarines collided while taking part in exercises in the English Channel. They were the M47 and the H32. The latter craft began to leak badly, but, thanks to her crew, who kept the pumps going, she was able to win a thrilling race back to Portland and safety.

Eighty persons have been frozen to death in outlying districts of the Government of Samara, in the southeastern part of Russia. Eighteen others have perished from the cold at Pugaev, while many deaths from the intense cold are reported from isolated villages along the Volga River. For below weather has been experienced.

George Lamping, president of the port of Seattle commission, has started negotiations which if successfully concluded will open that port to Canadian grain growers. He said that he had appealed to Canadian wheat pool officials to use Seattle's public terminals as a means of relieving congestion at eastern shipping points.

Seventy Russian families, who have arrived in London from the sea, are the London Daily Mail says, the forerunners of thousands of other Russian families which will leave Russia to settle in Canada during the spring. Robert Forke, Canadian Minister of Immigration, has announced that no official approval has been given for heavy immigration from Russia.

German Cruiser Draws Crowd

Rush to View "Emden" at Capetown Nearly Caused Disaster

An eager rush to board the German cruiser Emden brought disaster at Capetown. The officers of the cruiser, which was launched at Wilhelmshaven, Germany, in January, 1925, and christened after the famous war German raider had invited the public aboard, but the vessel could not accommodate the unexpected thousands who thronged the quay. It seemed for a time as though many persons would be pushed overboard by the pressure of the crowd which was relieved only when a hose was brought into play. There was a momentary panic in which many persons faltered.

The incident marred the good feelings which had been displayed since the Emden came into port for a visit.

Name Means "Good Water"

Many Wells Built in Canberra Before Advent of White Man

Canberra, which is "dry," is pronounced by the natives as "canbra," and in the aboriginal language means "good water" of which there is an abundance in wells built before the coming of the white man.

Canberra, where parliament will soon be opened in its new home by the Duke of York, is known as the "bush capital," because of its location, and Yarralumla House, an old fashioned "bush" homestead has been converted into the vice-regal residence for the Duke and Duchess of York, during their visit there.

A fish called Paleyans has been caught in the Mediterranean. It can travel at a speed of 50 miles an hour, and is said to be the fastest fish in the world.

"My, but your little brother is growing!"
"Yes, ma'am; he comes up to the hem of mama's skirt now."

Sheep Breeders Elect Officers

Annual Meeting of Saskatchewan Sheep Breeders Held at Moose Jaw

Following is the complete slate of officers of the Saskatchewan Sheep Breeders Association, re-elected at the annual meeting at Moose Jaw. Honorary president, Hon. C. M. Hamilton; president, I. J. Rushton, Rossmore; vice-president, W. C. Heron, Hunter; secretary, J. G. Robertson, Regina; directors, H. Follette, David; E. E. Baldwin, Saginaw; Ottavio, Dr. Lenzburg; Wm. D. Burroughs; Laura; J. B. Wiltsey, Brugh; William Kerr, Hutton.

"Saskatchewan's adaptability for sheep breeding has been proved by the success attending the efforts of many breeders in competition with the best on the continent," declared I. J. Rushton, president of the association. "Small flocks could be kept on every farm," he added, "but many people who would like to take up sheep breeding are hindered at present by the menace of dogs and coyotes."

Mr. Rushton said the sheep industry represented the most profitable branch of farming. Mutton and lamb prices for some time past had been very satisfactory, and although wool prices were unstable at present, he believed the co-operative shippers would receive a satisfactory price. A successful sale had been conducted by the association at Regina during the fall and he also referred to the encouraging success attending the sheep and swine car during the fall when 32 pure bred rams and 406 ewes were sold.

Stock purchased from the best British breeders was being used by leading breeders in the province for distributing their produce throughout the province and much credit was due these breeders for the work they were doing in maintaining the high standard of some of the most popular breeds, said Mr. Rushton. He hoped the Dominion and Provincial Governments would in the near future again realize the advisability of assisting in further importations from the Old Country.

Inland Fisheries Thriving

Western Provinces are Extending Shipments to Distant Markets

The inland fisheries of the Canadian West, and particularly those of Alberta, are apparently thriving and extending their shipments to distant markets on the continent. The summer fish catch on Lesser Slave Lake amounted to more than 650,000 pounds of whitefish, 468,711 pounds of pickerel, 310,162 pounds of pike and smaller quantities of other fish. In one week 30,000 pounds of fresh pickerel were taken from Pinehurst Lake, near Lac la Piche, and with quantities of fresh water herring shipped to the United States market. A carload of trout weighing 22,000 pounds from Lesser Slave Lake left Edmonton a short time ago for Minneapolis, to be followed by three other cars, and from the same lake and Lac la Piche, 120 tons of whitefish went to New York. The first plant in Canada, outside of British Columbia, for the freezing of fish, poultry, and eggs under the Ottawa process is to be installed in Edmonton with an initial capacity of fifteen tons per day.

For a United Canada

Dr. Terry of Alberta University Deplores Tendency to Sectionalism.

"Think of Canada as a spiritual unity and that all men who breathe Canada's air, are Canadians," declared Dr. Henry Marshall Terry, principal of Alberta University, Edmonton, in a strong plea for a united Canada, when addressing the Ottawa Women's Canadian Club recently. He urged "fair play and a sense of justice from one part of Canada to another," and to base our sense of unity on national grounds and not on sectionalism.

As a parting shot, he told his audience that "we've got to learn to use Canada's brains to solve Canadian problems."

He was most emphatic in stating that to be pessimistic regarding Canada was a crime. "The truth is," he said, "we have never been willing to agree on a non-partisan development of our great national enterprises. We must develop an intense patriotic unity."

"That fellow Boots has been saying awful things about me,"

"Indeed? What, he say?"

"He says I'm drinking whisky and soda from morning 'till night, and it ain't so, I hate soda."

Judge—Young woman, were you speeding?

Fat Autist—No, sir, I merely passed a fellow who was.

The intensity of light from the full moon is approximately 100 times greater than that from all the stars together.

Canada Attracting Attention

Has Greatest Export Trade of Any Self-Governing Country

Canada is becoming more widely known all the time. In an address before the Chamber of Commerce at Stratford, Ont., on the subject, "Canada and Her International Relations," Dr. Walter A. Riddell, advisory agent for the Dominion to the League of Nations, declared that Canada's export trade has shown a greater increase than that of any other self-governing country in the world since 1912. He went on to point out that today, due to the rapid expansion in her foreign commerce, her exports have increased 307 per cent since 1912, and to the fact that she is selling products in 54 different countries and dependencies, Canada is no longer living to itself, but is taking a tremendous interest in world peace and the problems confronting other countries. As a result, he declared, Canada is attracting more attention than at any other period in her history.

Britain Satisfied With Progress in Palestine

Promises to Make Best Return of All Mandated Territories

Of all the mandated territories Palestine is the most successful and promises to make the best return. So far from being an incubus on our finances, Zionism has supplied grain, the money and the brains to make what promises to be a great success of Palestine. Not a single Jewish settler in Palestine costs this country a penny, and the opposition of the Arabs, which so many popular newspapers unwisely stated, the former would be of small ultimate use.

Farmers are prone to take the pessimistic attitude and we usually have cause to complain. But we must not run away with the idea that we are, and have been, the only sufferers. The record of failures in urban business life has been appalling, and the wear and tear in town life during the past strenuous period of depression has been almost beyond belief. Unemployment has been rampant, and starvation far from unknown. Only those with fixed salaries and permanent employment—a small proportion of the whole—have escaped most of the strain. Turning our eyes to Europe, we find a condition, rural and urban, in comparison with which our past troubles seem childish and petty. And it is only by drawing comparisons with the rest of the world that we are of our own lot in life. The Canadian fact is a pretty good place after all. It has its compensating advantages. The obstacles in the way of a reasonable measure of rural prosperity are gradually being removed out in accordance with immutable economic laws. It may take years to restore normal economic adjustment, but the fact remains that the process is at work and the tendency is in the right direction.

Turning our eyes to Europe, we find a condition, rural and urban, in comparison with which our past troubles seem childish and petty. And it is only by drawing comparisons with the rest of the world that we are of our own lot in life. The Canadian fact is a pretty good place after all. It has its compensating advantages. The obstacles in the way of a reasonable measure of rural prosperity are gradually being removed out in accordance with immutable economic laws. It may take years to restore normal economic adjustment, but the fact remains that the process is at work and the tendency is in the right direction.

Rural Adversity And Its Compensations

By C. W. Peterson

The last decade has been a difficult one for agriculture, not alone in Canada but the world over. But we might as well take all the comfort out of the past unsatisfactory agricultural situation that we can. The most demoralizing influence any business or calling could possibly be subjected to is without a doubt continued prosperity. On the other hand, the most positive factor in a reasonable measure of adversity, property leads to extravagance in management, carelessness in business relations and in production. Why worry? But when adversity comes we focus our attention on the apparently trivial things. How can we cut down expenses? How can we improve the quality of our product? We are forced to go over every item in our operations and apply the searchlight in places where it otherwise would never be seen. Adversity is a great teacher. Adversity generally lays the foundation for future happiness and prosperity. Therefore, adversity must not be regarded in the light of a calamity, but must be accepted as discipline. Frequently, much is gained by a series of setbacks. It is heavy hand during the past few years, and only a fool will maintain that those who survived the stress and strain are not better off for it. Two conditions are facing us now. First, we are in a position of a severe financial crisis. Secondly, the wisdom and balance, born of adversity, to make the most of the good fortune in store for us. Without the latter, the former would be of small ultimate use.

Farmers are prone to take the pessimistic attitude and we usually have cause to complain. But we must not run away with the idea that we are, and have been, the only sufferers. The record of failures in urban business life has been appalling, and the wear and tear in town life during the past strenuous period of depression has been almost beyond belief. Unemployment has been rampant, and starvation far from unknown. Only those with fixed salaries and permanent employment—a small proportion of the whole—have escaped most of the strain. Turning our eyes to Europe, we find a condition, rural and urban, in comparison with which our past troubles seem childish and petty. And it is only by drawing comparisons with the rest of the world that we are of our own lot in life. The Canadian fact is a pretty good place after all. It has its compensating advantages. The obstacles in the way of a reasonable measure of rural prosperity are gradually being removed out in accordance with immutable economic laws. It may take years to restore normal economic adjustment, but the fact remains that the process is at work and the tendency is in the right direction.

SUNDAY SCHOOL LESSON

JANUARY 20

THE CHRISTIAN OVERCOMING TEMPTATION

Golden Text: In that He Himself that suffered being tempted, He is able to succor them that are tempted.

Lesson: Luke 4:1-13; I Corinthians 10:12, 13.

Devotional Reading: Romans 8:13-19.

Explanations and Comments

1. The Scene and the Nature of the Temptation, Luke 4:1-2—Yielding to the control of the Holy Spirit, who had come to Him in a special way at His baptism, Jesus went from the Jordan into the wilderness, there to meditate undisturbed upon the work God had given Him to do. During forty days spent there, a period referred to here perhaps as a "round number," representing many days, he was "tempted of the devil."

As the story is told in Luke, Jesus seems to have waged his great struggle through-out his wilderness sojourn, as told in Matthew and Luke the specific temptations seem to have come at the end of the words of the devil in the wilderness.

Jesus himself may have related this temptation, for in no other way could it have become known. We have the account as Jesus gave it of a combat which took place in His mind, an inner and spiritual struggle, which He pictured by a series of fitting analogies which His followers would understand. We cannot believe that Jesus intended to the words of the devil in the wilderness, as the literal interpretation of the story is, saying he would have held any temptation for Him. The devil is represented as standing in the shape of a tempter, tempting Him to the top of a hill, and to the pinnacle of the temple. There must be some reason for this. The temptation, the choice which we all make, sinners though we are, is not between the known good and the known bad; it is between two courses of action, each of which appears to be good. It is very difficult to see why we should choose to do evil, and it is very difficult to see why we should choose to do good. The choice which we all make, sinners though we are, is not between the known good and the known bad; it is between two courses of action, each of which appears to be good. It is very difficult to see why we should choose to do evil, and it is very difficult to see why we should choose to do good. The choice which we all make, sinners though we are, is not between the known good and the known bad; it is between two courses of action, each of which appears to be good. It is very difficult to see why we should choose to do evil, and it is very difficult to see why we should choose to do good.

The matter of date marking is also being raised in the United Kingdom. The chairman of the Birmingham Association recently said, "the trade had the right to ask that when butter was put into cold store in this country, it should be dated." Mr. Riddell added that in his opinion the dating of cheese and butter would be popular with the trade in the United Kingdom, and would increase the good-will towards and promote confidence in Canadian produce.

THE PLAN OF THE BEAVER BROTHOOD

If any one thing characterizes present-day society, it is the factor of organization. Society is highly organized and the complexity of its organization is rapidly increasing. And what is more to the point, it is on all hands admitted that this same organization is essential to every line of present-day endeavor. An unorganized undertaking, be it what it may, is predestined to failure in this strenuous age.

The Christian church does and must conform to the spirit of the age. This is the age of organization and the church has become a highly organized church. Time was when its activities were confined to the Sunday services and mid-week prayer meeting. Then the Sunday school was added. This simple arrangement did very well in its day, but a church run on these lines today—and there are still a few so run—would fade badly.

For the individual church of today is an organized church. It is not a simple society, but a mother of many societies. Primitive indeed is the church which does not boast a ladies' aid, a women's missionary society, and young people's societies and boys' and girls' societies of many sorts. In fact, the average small-town church is, if anything, apt to be over organized in every respect but one; it lacks the sapience of the whole edifice—a layman's society.

It is as idle to look back to the good old days when there was no such organizations in the church, as it is to grumble because the present-day church societies are not always efficient. Without them we could not keep up with the age. That the truth of this is generally recognized, is evident from the fact that the minister who can do nothing but preach and make pastoral calls is no longer in demand. The prime demand today is for the man who can organize his church, the able church administrator. Your successful pastor must be an expert in building up church organizations and in keeping them going.

Laymen's Societies in the Church Economy

The laymen's society is the weak point in the modern church. Most large city congregations have thriving laymen's clubs, but in the country churches, which bulk largest on the roster of every denomination, they are generally altogether lacking, or where they exist at all, expire after a sickly life of two or three years. The explanation is not far to seek; in fact, it is a matter of common knowledge.

Your "mere man" looks upon religion as the business of women and children. He is, of course, anxious that his children be grounded in morality and, unless his horizon is very limited, is aware that the church is the only effective school of morality. Hence he encourages his wife to interest herself in the church, since she is charged with the upbringing of the children. This done, he holds himself discharged of further responsibility. Viewing religion as the business of women and children, a church which is provided with efficient women's and children's organizations naturally seems to him to be fully equipped and a layman's society superfluous.

In this very natural supposition he is mistaken. He is, without knowing it, thinking in terms of the past. The time has come when men's organizations are vital to the life of the church, for a new problem has arisen which only men can handle. In the

evolution of human society the Boy, at last coming to his own. His particular needs are the problem of the hour. He must be piloted past his critical period which intervenes between infancy and manhood. He must not, for the want of a helping hand, be "cast as rubbish to the void." The school is not yet in position to perform this task; may never be in position. Nor can the smaller towns sustain branches of the Young Men's Christian Association. But one institution remains—the Church. It must provide for the Boy.

The Boy has escaped from his leading strings. Neither his mother, nor the women of the church collectively, an aope with him. To handle him is a man's job, his father's job. But the complexity of modern life the father has little opportunity for supervision of the Boy. Right here the necessity of the laymen's society becomes manifest. Band together with others in the church brotherhood is in position to render the Boy at efficient service.

Obstacles to Organization

That the church is not better supplied with men's organizations, that so great difficulty is experienced in starting and maintaining men's associations, within the church, is primarily due to one or another of three things: viz., competing attractions, local and divergent ideas. Let us consider the first two together, for they are inter-related.

One always runs up against the objection that the town is overstocked with organizations already. "Too many competing attractions," is the phrase runs. Now there is in this nothing new. It was as true thirty years ago as it is true today. But the important thing to observe in this connection is that, despite the multiplicity of competing attractions, there is always room for another of the right sort. Half the organizations of a place are uncalled for. They are ephemeral and seldom outlast the second season. There is always room for a living society, a body with a real mission in this world. As it enters the arena the less fit expire to make room for it. It is a case of the survival of the fittest.

And again, the reason why so many laymen's clubs disappear after a lingering existence of two or three years, is precisely because those stronger competing organizations of which its members complain are linked up with some general body, whence they derive strength and assistance, while your church club is trying to "go it alone." It is a victim of the spirit of localism. It lacks those vital elements of strength—a common name, periodical councils, visits back and forth with neighboring units, and pride in a nation-wide fraternity, which make for growth and stability.

A second difficulty arises from divergent ideals. When organization is mooted some are for starting a social service club, with a big supper once a month, spread by the ladies and for which the men pay; and there it ends. Religion is strictly tabooed. To speak of the church, even, might offend some who are not on the church rolls. Considerable eloquence may be expended on social service schemes of the most extravagant nature, but little is accomplished, and the things for which the church stands are generally benefited not a whit.

Others would rush to the other extreme. Everything must savor of the church. The assemblages of the club are, while they last, male prayer meetings. They afford a convenient occasion for the announcement of all church programmes and services. No opportunity is lost to button-hole newcomers and invite them to affiliate with the church.

It is difficult to say which of these is most objectionable. The laymen's society which becomes infected with the bug of secularism is certain to lose the strongly religious element, for whom it has no appeal; just as the ultra religious plan will repel the man about town.

The Beaver Brotherhood

The Beaver Brotherhood is the outgrowth of the men's club of the United

Church of Fernie. Its promoters believe that its plan of organization, especially adapted to the present needs of the United church. Briefly, this consists in a central directorate and local chapters, councils and groups, so co-ordinated as to enable the Brotherhood to be exerted at the weakest point; thus insuring the local units against disintegration.

In its policy the Brotherhood furnishes a via media between the ecclesiastical and secular extremes. Membership is not limited to churchmen and emphasis is laid on the social element, and yet is distinctively a religious fellowship and its activities are consecrated to the realization of the highest ideals.

Its more immediate objectives are two. In the first place, it seeks to furnish the United church with a common organization, into which the men's clubs and brotherhoods of its constituent elements. Presbyterian, Methodist and Congregational, may, without sacrifice of local autonomy, be incorporated and find a common life and become identified in common ideals.

The second objective is that of fostering Boys' Work in every phase. To emphasize the importance of this ideal is hardly necessary, and the Brotherhood has consequently taken up this work with the Boy as its special field. Its activities cover every stage of the work, from the training of instructors and leaders at suitable centers to the provision of equipment and instructors in the local church. The Boy is the problem of the hour. It is a man's job and the men of the United church should meet it. Common counsel will solve it, and the one hundred thousand men who form, or should form, the adult male contingent of the United church are invited to join the Brotherhood and get behind the movement.

The Brotherhood has opened provisional headquarters at Fernie, B.C. Those interested in the movement may obtain full information by addressing a letter to The Beaver Brotherhood, Box 856, Fernie, B.C.

THAT'S PEP

Vigor, Vitality, Vim and Punch—That's Pep!
The courage to act on a sudden hunch—

That's Pep!
The nerve to tackle the hardest thing with feet that climb and hands that cling
And a heart that never forgets to sing—

That's Pep!
Sand and grit on a concrete base—

That's Pep!
Friendly smile on an honest face—

That's Pep!
The spirit that helps when another's down
And knows how to scatter the blackest frown.

That's Pep!
That loves its neighbor and loves its town—

That's Pep!
To say "I will," for you know you can—

That's Pep!
To look for the best in every man—

That's Pep!
To meet each thundering knockout blow
And come back with a laugh, for well you know
You'll get the best of the whole darned show—

That's Pep!
These Modern Fashions

The stern school principal frowned over his glasses at the two girlish figures before him. They must be twins—they looked alike, acted alike, dressed alike. Each had bobbed hair, and each was dressed in a pink crepe frock that reached not quite to the knees.

"And what is your name?" he asked, indicating the child on the left. As she spoke he slowly wrote it down.

"And what is your twin sister's name?" he asked.

"Sir," the second answered in a husky voice, "I am this child's mother."

The entertainment staged here by Bert Johnston and his troupe of magicians, musicians, etc., on Thursday, Friday and Saturday night was thoroughly enjoyed by the large audiences of each night. The troupe promised to visit us again and to insure our attendance left us a pass, which stands good till the spring of 1931.

A FUNDAMENTAL PROBLEM

In his contribution to the debate on the address from the throne, Mr. J. S. Woodsworth, the labor leader, touched upon one of the most fundamental problems of Canada when he urged that more consideration be given to the worker and his means of living. He pointed out that the average cost of living for a workingman's family was \$20.00 per annum in urban districts, while the average yearly income was but \$950; and it was in the bridging of this difference in income and expenditure that so much misery was caused. This same phase of the worker's problem was brought out probably more effectively some three years ago by a man who if he did nothing else for the amelioration of the worker, deserves nothing but praise for his family budget, which he prepared to aid him in his plea for increased wages for the corporation laborers of the city of Montreal. I refer to Alderman W. J. Hushion, a division member for the St. Antoine division of Montreal. Mr. Hushion was not only successful in his efforts so far as the employees of the city of Montreal was concerned, but in a preface to his family budget he laid down as clear an exposition for the laborer and his family responsibilities as has ever been presented by a public man—his contention being "that contented workers mean greater production and larger prosperity for the nation."

Mr. Hushion's argument is fundamentally sound and concrete. "Under our present industrial system," he says, "the wages of labor is adjusted in strict accordance with the law of supply and demand, the element of human responsibility not being taken into account at all. From the community point of view such an adjustment is economically unsound, inasmuch as the annual income of the average laborer is not near sufficient to meet the minimum expenditure of himself and his family; a discrepancy which must be met in some other way, either by his wife going out to work, or by charity, and neither way is conducive to good healthy living conditions in our Canadian homes.

The undernourished family, instead of becoming an asset to the community becomes a charge."

The Hushion budget, covering 127 items, shows that for a working class family of five to live decently, it costs \$1800 per year; for it to merely exist, \$1200. "But how many laborers in Canada earn \$1000 per year," asks Mr. Hushion. He suggests that there should be a minimum wage board for men in all the provinces for as he truly says in his budget: "Canada can not afford to have men and women everlastingly struggling against and never passing the poverty mark. It prevents their outlook on life, and strangles all ambition."

The value of Mr. Hushion's contribution lies in the fact that he is not an orthodox leader of labor, in fact he never had any ambition along that line, but the district he represents in the city of Montreal, and which he has represented both in the provincial legislature and parliament, is composed principally of the laboring class and he knows by close contact with their daily life the wants of their families who he described as the "life blood of the nation."—M. S. Bureau.

WHY BOYS GO WRONG

The question "why boys go wrong" has been answered by 444 boys who ought to know. They are inmates of Elmira reformatory, and gave the following answers to the question of what caused their downfall. Bad associations, 35 per cent; easy money, 13 per cent; lack of funds to entertain girls, 12 per cent; liquor, 11 per cent; lack of discipline, 9 per cent; lack of employment, 7 per cent; pool rooms, 6 per cent; laziness, 5 per cent; corner gangs, 4 per cent; gambling, 4 per cent; smoking, no sense.

Heavy rain storms were experienced in Newfoundland during the second week of January.

TAKE A WALK AROUND YOURSELF

When you're criticizing others, And are finding here and there A fault or two to speak of, Or a weakness you can tear; When you're blaming someone's weakness,

Or accusing some of self— It's time that you went out To take a walk around yourself.

There's a lot of human failures In the average of us all, And lots of grave shortcomings In the short ones and the tall; But when we think of evils Men should lay upon the shelves, It's time that we all went out To take a walk around ourselves.

We need so often in this life This balancing of scales, That's seeing how much in us wins And how much in us fails; But before you judge another, Just to lay him on the shelf, It would be a splendid plan To take a walk around yourself.

Mrs. John Spence has returned from a few weeks' visit to Calgary.

VARIETY

Wind blowing wearily,
Snow drifting drearily,
Sun shining far away,
All seems to cast a gray
Shadow over my heart.

Man braves the storm alone,
Plants to their couch withdrawn,
Birds to a far south land
Bask 'neath a smiling hand;
I would depart.

Yet, when the spring shall come,
Welcome the travelers home;
More loved by missing them,
Start a new trip again
With the song of the lark.

So life must ever be
Freshened by change, you see,
Clad in variety.

—Anon, Bellevue.

Then She Put Him to Sleep

"Thomas," asked the nagging wife, as the bedtime hour approached, "is everything shut up for the night?"
"That depends on you," meekly replied Thomas, "everything else is."

PYTHIAN SISTERS ADDRESSED BY PROVINCIAL GRAND CHIEF

At the regular meeting of Greenhill Temple, Pythian Sisters, on Friday night last, there was a record attendance of members and visitors to greet the grand chief, Mrs. Josephine Shearlaw, of Drumheller. Following the conferring of the degree, the grand chief briefly addressed the meeting, complimenting the members of the degree team upon the very excellent manner in which their work was performed, also expressing great pleasure at knowing of the marked progress being made by the Pythian Sisters in Blairmore.

Among the visitors were quite a number from Hillcrest and Coleman. Following the meeting a sumptuous repast was served, and dancing and conversation was indulged in for an hour or two.

The Price of Salvation

A man wrote to a storekeeper as follows:

"Dear Sir—Last year I picked up a pair of gloves in your store and did not pay for them. Enclosed find a dollar. I couldn't let a thing like that stand between me and heaven."

The storekeeper replied: "Dear Sir—Thanks for the dollar and your confession; but there is still a dollar and a half between you and heaven, as the gloves you describe as having taken were worth \$2.50."

An optimistic forecast for the future of Poland was made recently by Gerard Hryn, representative of the Canadian Pacific Railway Company at Lemberg, Poland, who was interviewed in Montreal recently after completing an extensive tour of the Dominion and part of the western United States. Mr. Hryn stated that he was impressed with the evident prosperity of the Polish immigrant settlers he had visited near Edmonton. The acute problem in Poland today was over-population, informed the European representative.

"To take an extreme case of Cubist art and attempt to force it on the public against their will and intelligence, is folly," declared Leonard Richmond, R.B.A., well-known international painter, in an interview at the headquarters of the Canadian Pacific Railway in Montreal recently. Mr. Richmond is beginning a lecture tour of a number of Michigan and Illinois cities. He stated that he is aiming to show that all modern art, even in its most apparently unintelligible forms, is a legitimate development from all that has gone before.

Emmanuel B. de la Giroday, a native of Mauritius, who has been resident in Canada since 1908, has the official sanction of the Mauritius Government to make the necessary arrangements with the Government of British Columbia for the establishment of a farm colony in the Pacific coast province, according to report. "There are a few thousand people of English and French descent in Mauritius who would be in a position to emigrate to Canada if a suitable agricultural colony were found," he says. He is busy on a scheme for such a colony in the Fraser Valley where fruit and mixed farming would be engaged in.

As a result of discussions at the Imperial Conference in London the cheap passage scheme under which British immigrants have been proceeding to Canada during the year is expected to be renewed. The most important result of the conference, however, will probably be the extension of the scheme of training prospective British immigrants for Dominion farms and, instead of the 100 men secured by Canada in this manner this year, it is expected that from 1,200 to 1,700 men will be obtained next year. A new ten weeks' course in simple farm training will be introduced and will run concurrently with the four months' course already in operation.

I hereby certify to the correctness of this statement.

Dated at Blairmore, Alberta, this 26th day of January, 1927.

E. D. BATTRUM, Auditor.

Address of Auditor, 219 P. Burns Building, Calgary, Alberta.

A very interesting quarterly number of the "Canadian Elk" is to hand and is chock full of good live data of interest to Elks and every good spirited citizen. A lengthy article dealing with local activities and featuring the local Elks birthday and the kiddies' circus treat is well worth reading, also a two-page article on Newfoundland and Grand Exalted Ruler Colonel Royal Burritt's official visit to Elkdom in our sister Dominion.

Rumor has it that Ed. Royle, the efficient superintendent of Mine Rescue Car No. 1, has been appointed an Inspector under the Workmen's Compensation Act. "Ted" will conduct investigations formerly handled by Mr. Moses Johnson, the district inspector of mines. The appointment is part of the new policy of the government in relieving the inspectors at a lot of work connected with the W.C. Act.

Blairmore and Bellevue Juveniles will play their final game for the championship of the Pass on Friday (tomorrow) night at the Blairmore Arena. This is the fourth game of the series. Blairmore has won two and Bellevue one so far. The winner of this series will play Calgary for the provincial championship. The game starts at 7.30 sharp and the tickets are 25 cents. The boys need the money badly.

Two of the fastest hockey games of the season were witnessed on the Blairmore and Bellevue arenas on Friday and Monday nights, respectively, between the Bellevue and Blairmore Juveniles. The game here on Friday night resulted in a win for Blairmore by a score of 12 to 8, and at Bellevue on Monday night another victory for Blairmore by an eight-to-five score. The stick handling and fast, classy play of Kemp and the Joyce brothers, of the local team, won the admiration and applause from the rowd of spectators present.

Dube—"My girl got Austria the other night on my new radio."

Domonic—"That's nothing. My girl gets Hungary every night without a radio!"

An Englishman went into a restaurant in an American town, and was served with a dish that was quite strange to him. He called the waiter, and said: "What's this, waiter?" "It's bean soup, sir." "Yes, but what is it now?"

Reports of recklessness on the part of motorists continue to be received at the headquarters of the Canadian Pacific Railway. In the majority of cases the accidents are reported to have been the result of negligence on the part of the car owners. Two accidents at public crossings were reported recently; one near Wingham when a Ford coupe ran into the side of a train which was proceeding slowly over a crossing. The second accident occurred when a truck was driven in front of a C.P.R. train at a crossing near Chatham. The train was backing over the crossing at three miles an hour. In each case crossing and engine signals were given.

Curling history of a unique nature was made in Quebec city recently when the Jacques Cartier Curling Club, the first French-Canadian curling organization in the world, was inaugurated and their new curling rink formally opened. A delegation of seventeen prominent Montreal curlers, headed by T. Howard Stewart, Thane of Granite Curriers, arrived back at the Windsor Street Station from the Ancient Capital recently, where they officiated in the opening ceremonies of the new club in the neighboring city.

Revenue Account as of December 31st, 1936.

For Colds

ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Neuralgia
Pain Neuritis
Headache Lumbago
Toothache Rheumatism

**DOES NOT AFFECT
THE HEART**

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monroeville, Pa., U.S.A. While it is well known that Aspirin means Bayer manufacture, and that the only genuine Aspirin is Bayer's, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

An Inspiration To Canadian Youth

All America is ringing with praise of George Young, the 17 year old Toronto boy who won the great swimming marathon between Catalina Island and the mainland of California, successfully negotiating this stretch of icy water in a contest wherein one hundred others failed, including some of the world's most renowned swimmers. It was a wonderful achievement, and, following the performance of John Miles, of Sydney, Nova Scotia, who set a new world's record last year in winning the Boston Amateur Athletic marathon in his first race over the 26 mile course, and the enthusiasm which Canadian hockey players are arousing in the big American cities, is having the effect of further directing attention to Canada as a land which produces the finest types of sturdy young manhood.

Through his great feat, George Young not only wins a substantial financial reward, but he leaps into athletic fame. He will be honored, cheered and fêted, and his name will long be remembered in the annals of great feats of courage, strength, and endurance.

But it is not because of his victory alone that Canadians should be proud of George Young and find delight in doing him honor. Rather our deeper national pride should rest upon the qualities of mind and heart and character which this youth displayed in approaching the hard trial to which he set himself, and the noble integrity which dictated his action.

A poor boy, with no relatives but a widowed, crippled mother to whom he was devotedly attached, George Young voluntarily sacrificed his amateur standing as a swimmer and staked his all on this one effort. He did so not because of a personal desire for fame or money, but in an all consuming desire to be able to take his crippled mother to California and provide her with the means whereby she might regain her health.

The boy's strength of character, his grim determination, and his willingness to sacrifice were clearly shown when, lacking the necessary railway fare from Toronto to California, he started to make the journey on a patched up motor cycle and doggedly pushed his way as far as Arizona. A boy of less character and perseverance would have "passed the hat" in order to reach the goal of his desire. Had George Young not achieved fame as he has done, it is safe to say that, in any event, he would have made a success of his life and in whatever sphere he might choose.

Premier Mackenzie King rightly expressed the sentiments of the people of Canada when, in extending congratulations on behalf of the Government and people of the Dominion, he said that this country shared with equal pride George Young's success and his beautiful tribute to his mother and all that discerned the secret of his splendid achievement.

Such an achievement in the face of obstacles to be overcome that might well dampen the stoutest heart is an inspiration to the youth of Canada. Thousands of Canadian boys who can never hope to be great athletic champions and whose names will never be found on the lips of millions of their countrymen, but who in meeting the problems and difficulties of everyday life, in shouldering the responsibilities that may be forced upon them, do so with the same force of character, the same determination, the same willingness to sacrifice self for the good of others, are equally heroic, and of them Canada will be equally proud.

George Young has builded better than he knew. His mother has borne testimony to the cleanness of his young life, and George has in spectacular fashion shown all Canadian boys that a clean life, free from bad habits and dissipation, pays. He has brought forcibly home to all the truth of the old adage that where there's a will there's a way, in bringing fame to Canada, he has likewise brought something of far greater and more lasting value, an object lesson which will mightily appeal to the imagination and love for the heroic in every normal Canadian boy.

This is a real national asset, because it is only through the cultivation and development of these same traits which made George Young a winner that the boyhood of Canada, or of any country, can realize full success in their endeavors no matter what direction they may take, or how humble they may be. It requires exactly the same qualities to make a real success in anything if life as were required to successfully swim Catalina channel.

Mrs. Baggs: "I hear your son is going to get married; I do hope he will be lucky."

Mrs. Baggs: "Bless your kind heart, he'll be all right, he came through the Great War without a scratch."

If you would outshine your neighbors acquire a good reputation and then keep it polished.

MURNE
For Your Eyes
Refreshes Tired Eyes
Wash with it. — Chicago Eye-Care Center

WARNING!

Beware of Counterfeits

There is only one genuine "ASPIRIN" tablet. If a tablet is offered as "ASPIRIN" and is not stamped with the "Bayer Cross"—refuse it with contempt—there is "ASPIRIN" at all! Don't take chances!

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monroeville, Pa., U.S.A. While it is well known that Aspirin means Bayer manufacture, and that the only genuine Aspirin is Bayer's, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

Hardiness of Weed Seed

Seeds Lying Dormant for Forty Years

Will Germinate

The seed of some of the troublesome varieties of weeds show a great tenacity of life. They will resurface long after they are supposed to have been killed if not thoroughly and skillfully disposed of. The Michigan Agricultural College is engaged, as recorded in Bulletin No. 72 of the Dominion Department of Agriculture on Crop Rotation in an experiment to ascertain definitely how many years the common weed seeds will lie dormant in the soil and then resume growth where suitable conditions come about. Weed seeds are mixed with sand and placed in uncorrupted glass bottles that are buried twenty inches below the surface and one taken up every five years. The experiment which can be continued for 100 years has already been conducted forty years. After being this length of time in the soil it has been found that black mustard, pepper grass, pig weed, ragweed, wild primrose, common plantain, purslane and curled dock will still germinate. Some of these weeds removed in the earlier years failed to germinate but did so in later years. Ragweed failed to germinate in every trial until after it had been forty years in the soil. As the authors of the bulletin referred to (Messrs E. S. Hopkins and W. C. Hopper of the Field Husbandry Division of the Dominion Experimental Farms) suggest it is apparent that there can be no let up in the war against weeds, especially if the land has once become infested and that prevention of their getting a start is preeminently the most important method of weed control. Neglect for one year may result in a plague of weeds for a life-time and longer.

Joint Stiffness Goes, Swellings Disappear, Pain Is Subdued

No Liniment Gives Such Universal Satisfaction As

NERVILINE

It is the great penetrating power of Nerviline that makes it so efficient in overcoming swelling, stiffness and inflammation. It rubs into the very core of the pain, penetrates quickly through the tissues, and brings a warm, comforting relief at once. No liniment compares in pain relieving power with Nerviline. Use it for Rheumatism, Lumbago, Neuralgia and Colds. 35 cents at all dealers.

Democracy in Action

Rolls-Royce drove up to the football field of the private school, and a very important-looking woman called out to a little fellow in uniform: "You please call my son, Master Algeon?" In just a moment there was a shout: "Hey, Skippy, you ma's here!"

PUT STOMACH IN

ORDER AT ONCE

"Pape's" Diapepsin" for Gas, Indigestion or Sour Stomach

Instantly! Stomachs corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package to correct digestion at once. End your stomach trouble for good.

Since the demand from the United States for arsenic to fight the boll weevil in cotton has ceased, the Australian state mines at Jibbenbar have been compelled to close.

Heart Palpitation Dizzy, Sinking Spells

Mrs. M. A. Gagnon, Donatville, Alta., writes:—"Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just have everything all set down."

I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use and after using a couple of boxes I was not the same woman. I began to feel so much better, and after a few more boxes I was in perfect health. I always recommend them to those I know who are suffering from heart trouble."

Price 50c a box at all druggists or dealers, or mailed direct at cost of \$1.00 by The T. Milburn Co., Limited, Toronto, Ont.

Help For Baby

SCOTT'S EMULSION
Builds Strong Bones

Alberta Livestock Board

Officers Are Elected at Annual Meeting Held in Edmonton

At the annual meeting of the Alberta Livestock board at Edmonton, J. Charles Yule, of Carstairs, was elected president; J. P. Sackville, Edmonton, vice-president. In addition to the president of each of the livestock associations from northern and southern Alberta, the following men were elected to the board: W. J. Stark, Edmonton; E. L. Shabardson, Calgary; J. P. Sackville, Edmonton; J. T. Walters, Clive; A. E. Cross and G. H. Hutton, Calgary; J. G. Clark, of Irma.

Steps will be taken to set aside further assistance from the provincial government toward the exhibit going out to the Royal show next year. It is proposed to send an exhibit of all kinds of stock from Alberta to Toronto next year. To facilitate the shipping of a sheep exhibit the minister of agriculture will be asked to pay a competent man to accompany them.

There was considerable discussion regarding the appointment of judges for fairs and some recommendations will go forward to the Dominion government which it is hoped will overcome the present unsatisfactory conditions.

Robbers Take Heavy Toll

A Billion and a Half Is Stolen Each Year in United States, According to Estimates

Merchandise, valued at \$1,490,000,000 is taken out of legitimate channels in the United States each year by fraud, theft and robbery and sent back into the market through a system of "fence" to underworld honest dealers.

How the "fence," or receiver of stolen property operates to supply the liaison between swindlers, burglars and highwaymen is told in a voluminous report issued by the prison committee of the association of Grand Jurors of New York county.

In arriving at the huge total of losses the report gives the following tabulation: Merchandise frauds, \$500,000,000; credit frauds, \$285,000,000; robbery theft and holdups \$100,000,000; burglary, \$25,000,000.

The report also points out the weaknesses in existing laws which make the illicit dealer almost immune from prosecution.

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No matter how serious the case, send the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This comes from the best medical knowledge and experience of the world. It is a truly wonderful record, covering 25 years of success in almost every part of this continent, and even beyond the seas.

Portrait of Lenin

Appears on Stamps

Proceeds of Restricted Issue to be Used for Charity

For the first time since his death the visage of Nicolai Lenin has appeared on an issue of stamps. It represents him as a child of nine, long before Communism was dreamed of in Russia and appears on a restricted issue of twenty kopek stamps, the proceeds to be devoted to relief of the nation's 500,000 vagrant children. Hereafter the authorities have fastened on use of Lenin's likeness on stamps, cigarette boxes or advertising matter. The rule was relaxed in this instance to help the children.

Through Service For Overseas Travellers

In order to provide every convenience for overseas travellers, the Canadian Pacific Railway are operating through touring sleeping cars from Winnipeg; each week to connect with steamers sailing from West Saint John, N.B.

By direct to the ship's side, assure connection and facilitate transfer from train to steamer. Overseas bookings and reservations on these cars, may be made with any Ticket Agent of the Canadian Pacific.

"My razor doesn't cut at all."

"Come, come," replied the wife. "Your beard is no tougher than the linoleum I cut yesterday."

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It binds relief to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

To be popular never let on that you know more than the fools or as much as the wise.

Sneezing—Use Minard's Liniment.

Recover Dismantled Car

Berlin Police Deliver It to Owner in Running Condition

A seven-passenger limousine stolen two years ago, dismantled and sold piece meal by thieves to three different junk dealers, has been restored to the owner in running condition by the Berlin police. All it needs is a coat of paint.

More than a dozen policemen and detectives worked on the case off and on. Armed with the numbers of all parts of the stolen car, which was owned by a wealthy industrialist, the police garage mechanics were able to restore the car as it was when stolen.

FATEFUL YEARS FOR ALL WOMEN

Much Suffering Can be Avoided Through the Use of Dr. Williams' Pink Pills

"The most fateful years in a woman's life are those between forty-five and fifty. Many women enter this period under depressing conditions; through overwork, worry, or a watery condition of the blood, and they suffer heavily."

Among the commonest symptoms are headaches, palpitations, dizziness, backaches, depression and other well recognized disturbances of the health which show that the blood requires attention. Women stand in need of rich red blood all their lives, but never more so than at middle age, when the nerves are also weak and overwrought. In this condition there is no other medicine that can do so much for women as Dr. Williams' Pink Pills, for these pills make rich, red blood, which gives tone to the whole body, thus restoring robust health. Thousands of Canadian women have proved the value of Dr. Williams' Pink Pills in cases of this kind. Among them is Mrs. J. H. Johnston, Lion's Head, Ont., who says: "I am writing to let you know the wonderful good your pills have done me. I was a complete wreck, and would faint if I crossed the room, was going through the change of life, and was so weak I could not do my work. I went to Toronto, when my folks said nothing but an operation would help me. But I said: 'No, Dr. Williams' Pink Pills helped me in girlhood, and I am going to give them a trial.' I took the pills steadily for a month, when I returned to my work, and able to do all my work with ease. Friends here say it's a wonder I am alive after what I went through. I am thankful to my believe Dr. Williams' Pink Pills saved my life."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition, and cultivate a "resistance" that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Don't take it so hard, Tchabod— even if she threw you over, remember what the song says: 'The hours I've spent with thee, dear heart!'"

"It ain't the hours I'm thinking of—it's the Jack."

The tongue of a woman is her sword—and she never allows it to rust.

Nearly half of all the ships being built in the world are motor vessels.

Mrs. Sausley—Are you aware, Mrs. Shimbone, that your dog has just bitten my little Willie?

Mrs. Shimbone—What, your Willie, who has got over scarlet fever? Oh, Mrs. Sausley, if anything should happen to Fido I'd never forgive you.

Mrs. Sausley—Are you aware, Mrs. Shimbone, that your dog has just bitten my little Willie?

Mrs. Shimbone—What, your Willie, who has got over scarlet fever? Oh, Mrs. Sausley, if anything should happen to Fido I'd never forgive you.

Mrs. Sausley—Are you aware, Mrs. Shimbone, that your dog has just bitten my little Willie?

Mrs. Shimbone—What, your Willie, who has got over scarlet fever? Oh, Mrs. Sausley, if anything should happen to Fido I'd never forgive you.

Mrs. Sausley—Are you aware, Mrs. Shimbone, that your dog has just bitten my little Willie?

Mrs. Shimbone—What, your Willie, who has got over scarlet fever? Oh, Mrs. Sausley, if anything should happen to Fido I'd never forgive you.

Mrs. Sausley—Are you aware, Mrs. Shimbone, that your dog has just bitten my little Willie?

Mrs. Shimbone—What, your Willie, who has got over scarlet fever? Oh, Mrs. Sausley, if anything should happen to Fido I'd never forgive you.

Stops Coughing

The very first dose helps. Effective for both children and grown people. Does not disturb the stomach. Chamberlain's Cough Remedy. Standard for over 80 years.

Vegetarians Are Not Immune From Cancer

Cases Occur Among People Who Abstain From Flesh Foods

Inquiries have been conducted among monastic communities in England by doctors connected with the health ministry and from the information thus obtained it has been conclusively proven, says Sir George Newman, chief medical officer to the ministry, that cases of cancer occur among people abstaining from flesh foods. There is therefore no foundation for the contention that vegetarians are immune to cancer, he adds.

The investigations were made among the Carthusians, a French order; Benedictines, Italian; Carmelites, first founded in Syria, and Dominicans, Spanish, all of whom adhere to a strict diet system, most of them excluding meat.

British Subjects Should Use Canadian Ports

Delay When Landing at New York Would be Avoided

Canadians are reporting themselves, or are being reported, as the victims of delay and discomfort in the experience of landing from ocean liners in New York Harbor. Delay, discomfort and inconvenience may increase and multiply until Canadians learn to land at St. John and Halifax in winter time, as Canadians learn to sail from Montreal and Quebec in summer time. United States Jack-in-office operating at the Port of New York may yet teach British subjects that landing at the winter ports of their own country is easier to bear than the delays and discomforts prepared for British subjects at the Port of New York.

Plans for Diamond Jubilee

Outstanding events in the history of Canada will be faithfully depicted in pageantry of the most colorful and gorgeous sort, according to plans which are being quietly worked out for the Diamond Jubilee celebration of the Dominion which will be observed July 1, and participated in by H.R.H. the Prince of Wales and Rt. Hon. Stanley Baldwin, Prime Minister of Great Britain, says The Ottawa Journal.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil increases power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

What This TRADE MARK Means To You

Next time you buy a loaf of wrapped bread from your Baker, look at the paper and see if the Appleford trade mark appears thereon.

If so, it means that your Baker is protecting his goods and protecting your health by using the cleanest and purest paper that he can buy. Most good Bakers now use Appleford wraps because they know that their goods will keep fresh longer and will be delivered to you in a sanitary manner.

When buying Waxed Paper for household use be sure and ask for PARA-SANI put up in rolls or sheets.

FASCISM FOR ITALY APPROVED BY CHURCHILL

Rome.—Warm approval of Fascism as applied to the people of Italy was expressed by Winston Churchill, British Chancellor of the Exchequer, in a statement given out to the newspaper correspondents. The chancellor, like Sir Austen Chamberlain, British foreign secretary, came to Rome to see for himself the achievements of Fascism and confer with Premier Mussolini, Finance Minister Count Volpi, and other Fascist statesmen.

In one part of his statement, Mr. Churchill said: "If I were an Italian I am certain would be with you from the start until the end in your victorious battle against the bestial appetite and passions of Leninism."

"But in Great Britain we have not yet been face to face with that danger under the same form. We have our own methods of dealing with such things. But on one subject I have no doubt whatsoever—that we are united in the fight against Communism abroad."

As regards the United States attitude toward Europe the British watchdog of the treasury had to say: "An entente like that of Locarno excludes no other power, and it does not prejudice the interests of anyone who aligns himself with the general structure of the League of Nations, and facilitates the development of that vital instrument. And the United States cannot very well much longer remain aloof."

Editors Appoint Delegates

Saskatchewan to Send Delegates to Meeting of Directors of Canadian Association in Toronto

Regina.—At a meeting of the directors of the Saskatchewan division of the Canadian Weekly Newspaper Association held here, S. N. Wynne, Yorkton, and S. J. Dorman, Alameda, were elected to go as delegates to the meeting of directors of the Canadian Association in Toronto, February 25.

Several matters of importance to the Association were discussed at the meeting. The report of the committee which recently interviewed the Saskatchewan Government was read and adopted. The nature of the report was not for publication, S. J. Dorman, secretary stated, owing to the fact that the Government had not taken up the matter in question.

Liberal Party Accepts Lloyd George's Offer

Large Sum Has Been Placed at Their Disposal

London.—A capital sum of £300,000 and an annual income of between £40,000 and £50,000 will be placed at the disposal of Liberal headquarters as a result of the party's acceptance of Lloyd George's offer of financial assistance, according to The Daily News. This assistance will enable the party to present a full line of battle in the way of candidates in the next general elections.

Lloyd George insists his present offer is conditional upon the appointment of a neutral organizing committee—as distinct from the Asquithian and Georgian factions of the party.

New Grain Inspection Point
Moose Jaw.—Moose Jaw is to be a grain inspection district as from August 1 next by virtue of an Order-in-Council which has been approved by the Governor-General. Word to this effect was brought to this city by J. Gordon Ross, M.P. for the Moose Jaw federal constituency, on his return from Ottawa.

Confer Title on Emperor
Tokyo.—The posthumous title of "Emperor Taisho" has been conferred upon the late Emperor Yoshihito at an impressive ceremony in the Imperial Palace. Taisho is the name of the Emperor Yoshihito's era. The title was the last important ceremony before the funeral.

Prominent Architect Dead
Ottawa.—Richard Costenman Wright, chief architect of the public works of Canada and an outstanding figure in his profession, is dead here after an illness of five weeks. Death was due to paralysis. Mr. Wright was 65 years old and unmarried.

Cocktails, cigarettes and cakes are being served to customers by a dress-maker of Paris.

W. N. U. 1668

Want H. B. Line Completed

Resolution to be Introduced in Saskatchewan Legislature

Regina.—The completion of the Hudson's Bay Railway in 1927 with specific reference to Port Nelson as the terminal will be debated in the Saskatchewan Legislature during the session just opened, according to notice of a resolution introduced by Mr. Hill, Government member for Melfort. Mr. Hill announced that he would move the resolution in the following form:

"That in the opinion of this assembly, construction of the Hudson's Bay Railway should be carried on without interruption so that the line may be completed to Nelson during 1927."

Notice of the introduction of seven bills, the recommendations of the special committee appointed to nominate standards, committees for the session were approved, and a report of the departments of highways and education were tabled and a dozen petitions for private legislation were presented and tabled.

Hon. J. A. Cross, attorney-general, gave notice of his intention to introduce bills to facilitate the enforcement of reciprocal judgments in Saskatchewan and in other parts of His Majesty's Dominions and to amend the Deserted Wives' Maintenance Act.

Hon. T. C. Davis, Minister of Municipal Affairs will introduce bills to amend the Minimum Wage Act; Respecting Towns; To amend the Factories Act; To amend the School Assessment Act; and to validate certain tax sales.

British Marines Are Sent to China

Will Be Used for Defensive Purposes Only Says Official

London.—Scenes so familiar in the time of the war a decade ago were repeated at Changhai, China, as the British Marines were sent to the island to commence their preliminary journey to Portsmouth. Three hundred marched to the station with full field equipment, headed by a regimental band, and were frantically cheered by spectators.

They were joined by another 300 from Plymouth, Portsmouth supplying the remaining 400 necessary to make up the 1,000.

Official quarters again stress that whatever is being done is in no way intended as a departure from the policy of non-aggression. In this connection The Star, a radical newspaper, says:

"If it is intended to impress Eugene Chen, Cantonese Foreign Minister, then it may be possible to justify such a demonstration. But a nation like ours cannot make a demonstration and then draw back."

The marines will sail for China near the end of the month, and according to the Government will be used only for defensive purposes.

Plan to Develop Cuban Trade

Minister of Finance Returns to Canada With Proposal

Ottawa.—A trade agreement between Canada and Cuba may result from the visit to Cuba of Hon. J. A. Robb, Minister of Finance.

Mr. Robb has returned to Ottawa, and it is understood he is preparing to discuss with his colleagues in the cabinet the question of improved trade relations between the two countries.

While in Cuba Mr. Robb held some preliminary discussions with members of the administration, whom he found most friendly toward the idea of increased trade with Canada. Cuba now gives preferential tariff rates to the United States, but there is a feeling that without disturbing this preference, much can be done to develop Cuban trade.

During Mr. Robb's absence from Ottawa, Premier King had charge of the Finance Department.

Was Balaclava O'Day
Vexay, Ind.—Thomas O'Day aged 93 years, who is thought to be the last of the band who took part in the battle of Balaclava, immortalized in Tennyson's "The Charge of the Light Brigade," is dead here. Mr. O'Day was born in Ireland.

Influenza in Britain
London.—Three hundred and twenty-six deaths from influenza in England and Wales during the week ending January 15, were recorded in statistics published by the Ministry of Health. One hundred and thirty-seven died in London alone.

Strong Arm of Fascisti
Rome.—Any seaman showing himself opposed to the present Fascist national government can be barred from the merchant marine, for a seaman's card, under a royal decree published here.

Conferring of Titles

Discussion Is Opened by Suggestion Made by Premier Ferguson

Toronto.—Considerable discussion has followed the suggestion made by Hon. Howard Ferguson, prime minister of Ontario, at the banquet in honor of Col. Harry Cockshutt, retiring Lieutenant-Governor of Ontario, that the House of Commons should remove the ban placed on the conferring of His Majesty's favor for distinguished service in appointive positions like that just vacated by Col. Cockshutt. He emphasized that he did not suggest that the "no titles" ban be removed in the case of persons elected by the people.

W. P. Nickle, K.C., who, while member for Kingston in the Commons in 1918, was the father of the "no titles" resolution which was endorsed and sent to His Majesty, said he saw no reason for changing his opinion. He thought there ought not to be attached to any democratic country "an outgrown and worn-out system."

U. F. A. WOULD WIDEN SPHERE OF ITS INFLUENCE

Edmonton.—Rejecting the counsel offered by executive members of the organization to concentrate on the immediate problems and development of the movement in the provinces, the United Farmers of Alberta, in convention here, committed themselves to a policy of inter-provincial co-operation and national organization.

The proposition was opened by several directors of the organization who emphasized the dangers of embracing too large a sphere while the provincial field had not been thoroughly consolidated.

The proponents of national solidarity generally agreed that the farmers of Canada must depart from their purely provincial programs and activities and enter upon a broader undertaking, which would provide greater uniformity of action and enable the organized agriculturists to impose the influence in federal matters to which the importance of their industry was entitled.

Shortly after the convention had endorsed this policy of action, H. W. Wood, who was re-elected to the presidency of the U.F.A. for the twelfth successive term, indirectly drew attention to the possible consequences of overlooking the development of class consciousness.

Mr. Wood was dealing with the problem of fostering and strengthening the junior branch of the organization. There had, he said, been a slight indication of the development of a spirit of class consciousness in the junior branch, which did not appear to be the most desirable thing.

"I don't think any real or serious damage has been done, but unless we avoid the danger, there is a real menace of this spirit alienating the loyalty of the junior members to the parent organization of the U.F.A."

Bringing Home the Bacon

All manner of birds and animals have at some time or other been elected as mascots. Pigs as a rule are never elevated to such a position of honor, but the one in the photograph is an exception. While Miss Evelyn Evans of Brookline, voyaging around the world on the Canadian Pacific flagship Empress of Scotland, was on a shopping tour in Puenchi, Madeira, she bought this domestic pig. It is now promptly elevated to the animal to the post of mascot of the Empress of Scotland. And now the porker will be taking the air of foreign ports in the four corners of the earth before the Empress sails back to America from her 30,000-mile voyage.

OLD AGE PENSION BILL INTRODUCED IN B. C. HOUSE

Victoria, B.C.—An act to provide for old age pensions for the people of British Columbia was introduced into the Legislature by Premier John Oliver. The bill authorizes the province to enter into a general scheme of old age pensions with the Dominion on a fifty-fifty basis. Any agreement entered into would be under any act of the Dominion heretofore or hereafter passed relating to old age pensions and would call for the payment by Ottawa to the province quarterly of an amount equal to one-half of the net sum paid out during the previous quarter by British Columbia.

Under the bill the administration of the act would be in the hands of the Workmen's Compensation Board.

The Premier's proposal to the House is in the form of definite legislation by which the provincial government would be empowered to enter into an agreement with the federal government for the joint payment of old age pensions, the cost being divided equally between the province and the Dominion. This move is proposed in anticipation of the early reintroduction into Parliament of the old age pension bill previously brought down by the Mackenzie King government and rejected in the Senate.

Noted War Correspondent

Martin Donahue, Who "Covered" Several Wars, Dies in London

London.—Martin H. Donahue, noted war correspondent, died recently after several weeks' illness. He was born in Galway, Ireland, 57 years ago, and after an education which included study of the oriental languages, embarked on his journalistic career with the Courier Australasian, of Sydney, N.S.W., in 1892.

He was correspondent during the Boer War for the London Daily Chronicle. He also "covered" the Russo-Japanese war, the Turkish revolution of 1909, the Portuguese revolution of 1910, the Italian hostilities in Tripoli and the Balkan war of 1913-14.

In the great war he was an officer in the British intelligence corps, serving in Greece, Rumania and Russia.

Want Royal Commission
Montreal.—A petition which it is expected will be signed by 50,000 citizens of Montreal is being prepared for circulation by the St. Jean Baptiste Society asking the Premier of the province to appoint a Royal Commission to investigate the Laurier Palace disaster. The petition states that the decision of the city council to hold an inquiry is not satisfactory.

Killed in Plane Crash
Yaletta, Malta.—Three officers and a telegraph operator of the British air force lost their lives when their aeroplane struck a cliff and fell into the sea near here.

Employment Situation Improved Last Year

Statistics Show Greatest Expansion of Any Year Since 1922

Ottawa.—Employment as reported by employers in Canada to the Dominion Bureau of Statistics during 1926 was in greater volume than in any other year since 1922.

There was almost uninterrupted expansion on a large scale from early in January until the first of October. This upward swing carried the curve of employment to a level many points higher than in any of the last five years. During these eight months of advancing employment nearly 125,000 persons were added to the staffs of the reporting firms, a greater number than had been taken on in the same period of any other year of the record except 1922, when the opening up of industry following the depression of 1921 caused the employment of approximately the same number of extra employees.

In 1926 the most extensive gains were recorded at the beginning of May, June and July. It is usually the case. There were smaller increases in the next three months, followed by declines at the beginning of November and December. Owing partly to the effect of an early winter upon construction, the losses between November 1 were rather larger than on the same date in 1925 or 1924 but on the corresponding date of any other year of the record, except 1922.

Grading Cattle and Sheep

Advocates the Grading at All Stockyards by Federal Graders

Moose Jaw.—A movement looking to the grading of cattle and sheep at all the stockyards in Canada by federal graders was launched at the annual meeting of the Saskatchewan Cattle Breeders' Association here, when resolution asking the Dominion Government to appoint graders for this purpose was carried unanimously.

Assurance that the Saskatchewan Livestock Pool was going over the top was given by Ole Olafson, director, who stated he expected the objective of 1,000 carloads of livestock under contract would be secured very shortly, possibly by the end of the month.

C. W. Thurston, Regina, president, urged the farmers to grow cattle feed instead of practicing the bare summer-fallow system and declared hundreds of farmers could spend their time to better advantage by feeding a carload or two of steers each winter.

Death of Queen Charlotte

Belgian Court Goes Into Ten Weeks' Mourning

Brussels.—The Belgian court went into ten weeks' mourning for Charlotte, widow of Maximilian, once Emperor of Mexico. She died in the 87th year of a life that had been hardly more than a shadow since 1867. In that year Maximilian was executed in Mexico and Empress Charlotte who was in Europe trying to gain aid for his unstable empire lost her reason never to recover it again save in rare and fleeting moments, one of which came just before her death from influenza and pneumonia.

SCOPE OF THE CUSTOMS PROBE TO BE EXTENDED

Vancouver.—The scope of the Royal Commission appointed to inquire into the conduct of the Department of Customs and Excise has been further extended.

When the commission resumed sittings, Chairman J. T. Brown produced an order-in-council passed on January 14, by virtue of which the commission is given even fuller powers of investigation. Under the terms of the order which was passed on the recommendation of Premier Mackenzie King, the commission will in addition to the powers already conferred, be empowered "to inquire into and report upon any other matters coming under the administration of the Minister of Customs and Excise which affect the public revenue of Canada or relate to the operations of any person or corporation owning, operating or employed in connection with any business carried on under the provisions of the Excise Act, or Customs Act, or any regulations made thereunder, or are incidental or closely related to any of the matters or things hereinbefore or referred to, and that they be authorized to cause to be made any investigation or inquiry to exercise all or any of the powers mentioned in sections 11 of the Inquiry Act."

WOULD ABOLISH DOMINION GRAIN STANDARDS BODY

Edmonton.—Abolition of the Dominion Grain Standards Board, as at present constituted, and the creation of a new body, affording equal representation of the producer and the grain trade of the three prairie provinces, was urged in a resolution passed by the United Farmers of Alberta.

Bitter criticism was directed against the work of the existing standards board and the claim was made that the farmers of Alberta had suffered an appreciable loss through the adoption of a standard declared as detrimental to the producer.

In accordance with the provisions of the resolution, the reorganized board would be composed of 15 members, with four representatives from each of the prairie provinces and one respectively from Ontario, Quebec and British Columbia.

The federal government, will be asked to effect the suggested reorganization in sufficient time to permit the new board to function in settling the standards for the 1927 crop. Advocates of the resolution alleged that the standard samples set for the 1926 crop had not contained a fair sample of Alberta wheat and that they could not be applied to a fair volume of the wheat grown in the province. It was suggested that any re-constituted board should secure representative samples from the various parts of Alberta in reaching a 1927 standard, so assuring adequate protection for the producers of the province.

Canada Should Share

British Navy Burden

Resolution Is to Be Laid Before B.C. Legislature

Victoria, B.C.—A resolution urging the Canadian government to shoulder a fair share of the cost of the naval defence of the Empire will be introduced into the legislature this session by Major Alan Lyons, Conservative, Victoria.

Making this announcement in the House, Major Lyons said he had felt shameful for Canada as he listened to Premier Stanley M. Bruce of Australia delivering an address on imperial affairs here.

"The time is ripe for this province to take a stand on this matter," Major Lyons said. "If we are going to be the big people we think we will be, we should take the initiative and press Ottawa to assume a proper share of the imperial defence burden."

U.S. Criminals in England

Scotland Yard Has Orders to Shoot to Kill When Pursuing Desperados

London.—Scotland Yard, spurred by a recent increase in the operations of gunmen in London and the provinces, is organizing a flying squad under orders to shoot to kill when in pursuit of desperados.

The squad will consist of picked men having speedy automobiles. Citizens volunteer police of 1,500 men has also been sanctioned in Hertfordshire by the home secretary as an aid to the police in the preservation of law and order.

The methods employed by burglars and other criminals in England of late have brought the authorities to the belief that U.S. gunmen have reinforced English crooks, and have introduced a tendency toward the use of firearms when coerced.

Argentine Crop Large

Buenos Aires.—A second forecast of the Ministry of Agriculture, on the present Argentine cereal crop, following that issued a month ago, shows that the wheat yield in almost all zones will be greater than was first expected. The ministry's figures are as follows: Wheat, 6,665,000 tons; linseed, 1,750,000; oats, 1,041,000; barley, 421,000; rye, 35,000, and canary seed, 26,000.

Seaplane Destroyed by Fire

Los Angeles.—Catching fire while returning from battle manoeuvres of the United States fleet one mile out from Los Angeles harbor the navy seaplane 2-F1 was completely destroyed near Dead Man's Island. Her crew of five was saved. The flames were caused by backfiring of the engine. The craft cost \$30,000 to build.

Youngest Governor in Texas

Austin, Texas.—Governor Miriam M. Ferguson today became plain Mrs. Ferguson and Dan A. Moody became the governor of Texas. The first woman ever to sit as governor of a state in this country turned over her office to Moody, who is the youngest executive in the annals of the state.

HIGH PRICE FOR ALBERTA BONDS

The highest price paid for Alberta bonds since before the war was obtained recently when two issues, one for \$1,900,000, and the other for \$1,250,000, were purchased by a Montreal bond house. The first issue, which is for thirty years, brought a price of 94.15, and is to be used to pay the Royal Bank claim on the E. D. & B. C. Railway. The second issue, for fifteen years, brought a price of 95.81 and is for the completion of the program of main highway construction in Alberta during the next year.

RAISING THE STANDARD OF CANADIAN POLITICS

As the means of raising the standard of Canadian politics the Hon. Charles Murphy, former postmaster-general, in a letter to the press, suggested the use of the residence of Sir John A. MacDonald and Sir Wilfrid Laurier as Meccas for annual pilgrimages, when the political leaders of today, under the inspiration of the traditions of these great chiefs, would perhaps be able to lay down their policies in language more in keeping with the importance and dignity of Canadian politics than has been thrust on the Canadian people during the last few elections. Mr. Murphy also suggested as a kind of political education the holding of public meetings during the recess of parliament, whereby parliamentarians could give an account of their stewardship, all of which is excellent advice for there is no gainsaying the fact that Canadian politics were never at so low an ebb as they are today. Moreover they will never get any better until the standard is raised, and this is equally applicable to all political parties. Canada today has problems which the Fathers of Confederation never dreamed of; problems that affect every citizen, and it is only as the man in the street can grasp their full meaning shall these problems be solved intelligently, consequently they must be placed before the electorate in an intelligent manner by those who have taken upon themselves the responsibility of leading the country.

POWER OF ADVERTISING

Beyond all questions, the most potent creator of business demands in America is the newspaper advertisement. Millions upon millions of dollars are expended every day in the stores of the country because well written advertisements have directed public attention to convenient, becoming attractive, useful, ornamental and suitable merchandise. The sale of all necessities, all luxuries, all indulgences, is more powerfully stimulated by the newspaper advertisement than by any other agency. Only hunger, cold and nakedness are comparable to the advertisement as a promoter of sales—and even purchases of food, fuel and clothing are directed more largely by the business of the press than by any other influence except immediate necessity. The greatest stores in our greatest cities have been built up by their advertising; their persistent clever invitation to the public in the press to share in their bargains. Imagine what would happen to daily merchandise, real estate, theatre tickets, insurance, books and other things, if newspaper advertisements were prohibited by law for six months. It is no exaggeration to say that they would drop 50 per cent. It is not the current news of events alone that makes the press of such incalculable value to the nation, nor the free editorial expression of opinion. The business news of the day, as told by business concerns in their advertisements to the public, decisively influence both the volume and the direction of trade which flows to this or that store, office, or bank. This is a fundamental fact no business can afford to overlook.—Ex.

Blairmore Juniors have been drawn against Nanton Juniors in the provincial playoffs. It is likely that Blairmore will play in Nanton on Tuesday and Nanton here for the second game of the series on Friday night. Winners of these games will night. Winners of these games will River series.

On Tuesday night next, February 1st, Gordon Thompson, Canada's premier ice skater, will appear at the Blairmore Arena in a programme of laughs, thrills and spills. Admission will be 50 cents for adults and 25 cents for children. Exhibition starts at 8 o'clock. General skating after the exhibition.

A ten-year crime career ended on the gallows in the provincial jail yard at Winnipeg on Tuesday morning when Wilfred Bonin, 24-year-old bank bandit, drug addict and internationally known criminal, paid with his life for the slaying of Maurice Garvie, 22-year-old bank clerk of the Royal Bank during a holdup on May 28th last.

The preliminary hearing of the charge of manslaughter against Dr. J. H. Duncan, of Manyberries, was concluded at Lethbridge on Friday morning, with the accused reserving his defence on the advice of his counsel. He was remanded for trial at the next court of competent jurisdiction on bail of \$7500 in himself and two sureties of like amount. The trial will take place at Medicine Hat.

Local and General Items

Mr. Grig, manager of the McLaren Lumber Co. here, was a business visitor to Calgary during the week.

Mr. D. G. Mackenzie, of the local legal firm of Gillis & Mackenzie, left for Edmonton on Tuesday night, where he appears in behalf of the Blairmore School District in the appeal of the Alberta Teachers' Alliance and former teaching staff versus the Blairmore School Board and District. The case comes up for hearing today and will likely occupy some days.

A unique compliment was paid to the Alberta government telephone system recently, when large eastern financial interests made an offer to the provincial government to purchase the system. The offer was refused, the government deciding to continue to own and operate the system, which is recognized as one of the most efficiently managed on the continent.

On the open-air rink at Hillcrest on Saturday afternoon a snappy game of hockey was played between teams from the Sunday schools of St. Anne's church, Blairmore, and St. Theresa's, of Hillcrest. Snow was swept by a hurricane across the ice during the whole game and made the play difficult. St. Anne's team was well matched for size and its team work was good. They forced the play in every period, peppering the Hillcrest goalie with rubber from every direction. The storm and strange ice were against them and they sunk only three of all their shots. Hillcrest showed less team work, but seemed more effective in their putting, nine of their shots landing safely, giving them six over their opponents. Billy Makin was referee.

KNIGHTS OF PYTHIAS

The international extension programme announced recently by officers of the Supreme Lodge Knights of Pythias will, in a large measure, direct the activities of Livingston Lodge No. 22, according to Chancellor Commander T. J. Williams, who was recently installed with eight other officers of the lodge to direct the work of the Pythian fraternity in Blairmore during the year. The programme includes among other activities a definite plan to increase the social features, quicken interest in community service and to make a stronger appeal to worthy citizens to become members of the Order. The lodge has set as a mark in the increase of its membership under the general plan announced by the Supreme Lodge to secure a twenty per cent net gain during the year.

Commenting on the outline for the new year, Chancellor Commander Williams said: "The programme is intended to make the lodge a real factor in the life of the community and to aid in the extension of the benefits of fraternal membership by performing its share in the great national movement. The movement is supported by nearly one million members in the United States and Canada. We have over 6100 lodges and it is the purpose of the programme of activity to make every one of these lodges the centre of fraternal accomplishment in performing the service for which the fraternity was founded—to make better homes and better communities in which to live.

"The Pythian Order now operates eighteen homes for aged members, their widows and orphans. Five other states are building homes. Investment in this phase of Pythian endeavor amounts to more than \$4,000,000 and over 2000 men, women and children are provided with home comforts. Five grand domains have established educational trust funds by which worthy young men and women are given opportunity for advanced college training. Nearly two hundred are now being kept in colleges through loans from these funds.

"The Pythian Sisters, the women's auxiliary of the Order, has a membership of nearly a half million and distributes annually more than \$250,000 for the care of orphaned children and for the comforts of the aged and poverty stricken.

"The Military Department is very active and is offering to the young membership a military training almost equal to that obtained in barracks maintained by various states. "The Insurance Department has celebrated its forty-ninth birthday by moving into its new home office building in Indianapolis, Indiana, located on the war memorial plaza. This branch of the Order has distributed over \$60,000,000 to widows and orphans. It has nearly 100,000 members and insurance for home protection amounting to over \$120,000,000.

"In every respect the financial condition of the Order is gratifying. The subordinate lodges distributed last year \$1,709,000 for relief. The assets of grand and subordinate lodges are over \$300,000,000, a gain of over \$1,015,000 for the year, and in 1926 sixty-six lodges built their own homes costing more than \$8,000,000. Our lodge in adopting this programme will take definite steps to carry out the objectives of other lodges over the 'supreme domain.'
